

## New Vanta™ iX In-Line XRF Analyzer

Keep Your Process Up to Speed with Automated Material Analysis

The new Vanta iX in-line XRF analyzer automates material analysis and alloy ID on the manufacturing line. Ideal for 100% inspection of bar, billet, tube, and rod manufacturing, machined parts, and customized components, the analyzer keeps your process up to speed.

- Fast alloy verification with pass/fail analysis
- Designed to operate 24/7
- Easy integration on robotics and other systems

To learn more and try the Vanta iX analyzer in your facility, contact your local sales representative or visit [www.olympus-ims.com](http://www.olympus-ims.com)
